I made a small fractured quilt using Katie's instructions - although rather than using the recommended railroad boardBy Susan FenderI read this book from cover to cover and am still using it as a reference. I made a small fractured quilt using Katie's instructions - although rather than using the recommended railroad board, I used my favorite freezer paper method for making my templates. Katie's quilts are quite large and need the railroad board for templates, but her

methods may be applied to smaller quilts. I recently used her applique methods - described in detail in this book - to make a quilted collage of some of my own photos. I would recommend her book to use as a starting point to create your own 'one of a kind' quilts.
