Stephanie Inman : Framed Memories: Creative Scrapbooking Projects for Your Home before purchasing it in order to gage whether or not it would be worth my time, and all praised Framed Memories: Creative Scrapbooking Projects for Your Home:

4 of 4 people found the following review helpful. Perfect Gift Book for Scrapbooking Friends!By ScrapbookerFramed Memories is a beautiful book to snuggle up with, if only to appreciate all the creativity within. The featured projects range from romantic and feminine to humorous and fun.It also serves as a resource book for scrapbookers who have special memories that belong framed and on a wall. Complete with easy-to-follow directions, the original, yet usable, ideas are right at hand when I'm ready to create a framed memory for a loved one. (What personal gift ideas inside!) It's layouts help me to "think outside the box" when it comes to what I can use in my scrapbooking. Some of Inman's unique designs include using a bike chain, a pizza plate or a dog bone in her framed projects! And why not have more memories on the wall as home accents instead of tucked away in a dusty box?Finally, it is the perfect gift book for the scrapbookers on your list - so full of innovative ideas that it will be appreciated by even your most creative friends!1 of 1 people found the following review helpful. I love itBy Yolanda FelicianoBuen, libro. Me gusta hacer scrapbook y ha sido buenisimo para mis proyectos de scrapbook, me encanta, compreno, lo recomiendo0 of 1 people found the

following review helpful. Three StarsBy dothanevaI was looking for a book with scrapbook ideas not pictures for my house.

With Stephanie Inmans craft book *Framed Memories*, a do-it-yourselfer can turn photos and mementos into meaningful works of art. *Framed Memories* is a source book with over 40 creative projects for your home from a Japanese inspired framed birth announcement to a homebuilt airplane memory piece to a leash rack for Inmans dog Kip there is truly something for everyone. The stylish yet wonderfully accessible projects are explained in detailed how-tos and showcased with beautiful full color photographs.

From the PublisherWhy hide precious memories inside a book? For something fresh and new, think off the page and outside the bindings. Every crafter is hungry for original techniques and unique canvases to express her skills, and Stephanie Inman, a graphic designer with an appealing contemporary approach, will feed that desire. She offers stylish yet wonderfully accessible suggestions for transforming photographs, memorabilia, and other visual material into artistic keepsakes: her imaginative ideas range from magnificent shadow boxes to cleverly designed frames. All the projects are showcased in gorgeous full color photographs--most shown in home settings--along with detail shots and conceptual sketches. A Selection of the Crafters Choice Book ClubFrom the Author*Framed Memories* is about taking your photos, mementos, and keepsakes - the celebrations of your life and experiences - and showcasing them in new ways. Its a little like scrapbooking for your walls. I loved using unusual objects in the projects. I used barbeque skewers, curly willow branches, bits of linoleum, broken jewelry.. lots of found materials. Using shadowboxes, frames and trays as a base freed me to incorporate 3-dimensional items that cant be used in a traditional scrapbook or standard frame. It is my wish that the reader is inspired to share their stories and create their very own framed memories.From the Back CoverDont hide your photos or other keepsakes! Stephanie Inman has moved her innovative, themed layouts out of scrapbooks and into the spotlight on charming gifts and home accents. She uses favorite scrapbooking supplies and techniques in her framed memory projects, but also incorporates surprising elements like wooden skewers and found objects such as beadboard. She presents unusual ways of displaying keepsakes, including an easel and a wooden pencil box. Why not use a basket or tray instead of a frame? Or turn a photo display into a one-of-a-kind tie rack? Adapt any of these ideas and make them your own.
