The image of the untamed American West persists as one of our countrys most enduring cultural myths, and few photographers have captured more compelling images of the frontier than Timothy H. OSullivan. Trained under Mathew Brady, OSullivan accompanied several government expeditions to the Westmost notably with geologist Clarence King in 1867 and cartographer George M. Wheeler in 1871. Along these journeys, OSullivan produced many beautiful photographs that exhibit a forthright and rigorous style formed in response to the landscapes he encountered. Faced with challenging terrain and lacking previous photographic examples on which to rely, OSullivan created a body of work that was without precedent in its visual and emotional complexities.The first major publication on

OSullivan in more than thirty years, *Framing the West* offers a new aesthetic and formal interpretation of OSullivans photographs and assesses his influence on the larger photographic canon. The book features previously unpublished and rarely seen images and serves as a field guide for OSullivans original prints, presenting them for the first time in sequence with the chronology of their production.
