Five fruits for your sewing pleasureBy BarbaraLynApples, pears, oranges, lemons and cherries make a great fruit bowl and it is also the theme of Ms. Polsen's book Fresh Picked for all Season.Each section has a towel in that fruit's theme and then there are other patterns such as quilts, pillows, placemat and napkins, table toppers, aprons, bags, and wall hangings. There are other patterns as well. Throughout the book are special tips called Two Sisters Tip

and they are set off in colored boxes. General instructions will be the first thing you read about in the book. Then comes the fun. Which pattern will you pick to work on first? A colored photo of the finished item with its finished size listed below. Fabric requirements and a cutting guide are next. Assembly instructions are clear with graphics to help you along. Any templates needed are found at full size. 30 patterns will keep you busy for many hours to come. If you are looking for a "fruity" project, this book will help you along.

Let Dodi Poulsen be your guide as she shows you how to use bold, bright and beautiful novelty prints with traditional standby's like dots, stripes, and solids in collections of versatile designs that are at home with today's wide range of large-scale fabrics. The book provides 30 projects.
