Janit Calvo : Gardening in Miniature: Create Your Own Tiny Living World before purchasing it in order to gage whether or not it would be worth my time, and all praised Gardening in Miniature: Create Your Own Tiny Living World:

3 of 3 people found the following review helpful. A good beginner bookBy Marvin SA nice book for a beginner in miniature gardening. Lots of pictures and ideas and I found it helpful. Someone with more experience might not find it very useful. I would recommend the book for someone new to fairy gardening. There is good information about arranging, planning and planting, desirable supplies, and information regarding composition and scale.3 of 3 people found the following review helpful. Plenty of Wee Inspiration in this BookBy Debbie TeashonMiniature gardens, fairy gardens, railroad gardens they are all about small space gardening to the point that even if you only have an outdoor balcony you can grow a tiny garden scene. Plant it, decorate it, and add characters to it, its all to scale of course, no matter what size garden you have! Janit Calvo takes you through the steps of creating your own tiny living world in this charming book. Every page is packed full of wonderful photographs and ideas, you could really get lost in this art form. My favorite garden in the book was the pond in the pot, but many of her created gardens intrigued me. If the bug of gardening in miniature hasnt bitten you, this book will send you right over to the wee side, a place you will never regret going! This is a good book to get you started, or if you already have some under your belt, Calvo helps inspire you to create more.9 of 9 people found the following review helpful. Gardening in MiniatureBy Diane davidsonExactly what I needed to get started on my new hobby. Perfect picture inspiration, great how-to information. Best book on the subject.

Get ready to journey into the huge world of growing small! The next garden trend combines the joy of gardening with the magic of miniatures. *Gardening in Miniature* is a complete guide to creating lush, living, small-scale gardens. It has everything you need to pick up this new hobby, including scaled down garden designs, techniques for creating tiny hardscapes, miniature garden care and maintenance, tips on choosing containers, how to buy the right plants, and where to find life-like accessories. Inspiring step-by-step projects feature basic skills that can be recreated in any number of designs, like a tiny patio, a trellis, a pond, and a secret garden. Whether you want to build a miniature empire in your garden bed or design a private garden with a pebble patio for an indoor centerpiece, *Gardening in Miniature* is the primer for creating your own tiny, living world.

From Booklist As a portal back to childhood, a time when one's imagination spins magical tales, miniature gardens are precious, and the subtitle gets it just right: you can create your own tiny living world. Calvo's how-to covers miniature garden accessories, scaled design basics, patios and pathways, plants for the miniature garden, samples of miniature garden projects, and maintenance. Full-color photos throughout and detailed charts that categorize trees, shrubs, and miniature bedding plants by sun and shade and outdoor and indoor light levels provide adventurous gardening enthusiasts with technical know-how, tool tips (use a dinner fork as a rake), and creative ideas. Hardly child's play, gardening in miniature is as challenging as working with a full-scale garden design and encompasses questions of proportion and scale, maintenance and sustainability. With listings of additional readings, metric conversions, and an index, Calvo's guide will draw beginning and experienced practitioners to this whimsical hobby as art. --Whitney Scott *Miniature Gardening* is a magical option for the gardener with limited yard space. This book will position well anyone who wants to begin creating a little world filled with happy growing things. Publishers Weekly It will draw beginning and experienced practitioners to this whimsical hobby as art. Booklist Adorable. . . . A pleasant escape that allows [one] to not just imagine a carefree and fanciful world, but also to build and experience it, too. Country Living After reading this book, I came away even more inspired to create my own miniature garden. Beautiful examples of tiny gardens along with easy-to-follow directions. . . . are all included in this helpful book. Birds Blooms A pleasant escape that allows [one] to not just imagine a carefree and fanciful world, but also to build and experience it, too. Philadelphia Inquirer The author lays out how we might invent Lilliputian versions of our own lives so that we might imagine inhabiting this or that little Eden of our own devising, lovely and perfect little places where all the things we love best in the world could be bound perhaps even literally in a nutshell.
