My New Family Craft BibleBy CustomerI bought this book recently to help me be more creative with my two children and I love it. All of the crafts are very easy to follow, and they use alot of things you would already have around the house so I didn't have to buy many materials to use it. It's a lovely size book and there are so many beautiful photographs which make it really easy to follow. It's a lovely size book too, not to big. I bought one for my daughters teacher too and she loves it

and uses it in the classroom all the time. There are 40 crafts in total and lots of different holiday crafts included. 0 of 0 people found the following review helpful. Five Stars By CustomerA must have for anyone with kids!!
