**Search Press : Glass Painters and Silk Painters Pattern Book** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Glass Painters and Silk Painters Pattern Book:

This book covers many different styles and is packed with original designs which can be used and adapted to create a whole range of professional-looking items, whether you want finely drawn images, or boldly outlined patterns. As an endless resource it offers a striking selection of traditional, classic and contemporary ideas which can be outlined, coloured and embellished as you choose. Here you will find flowers, trees, foliage, birds, animals, figures, hearts, and much more.

March 05 Another pattern book from Search Press. This one is composed mainly of flowers, trees, birds, animals, figures and initial letters. They are large, clear motifs which could be suitable for digitizing, silk paints etc. Some of the more abstract motifs are interesting but rather an excess of figures. Workshop On The Web Feb 05 Another bumper bundle of decorative designs. This book covers many different styles and is packed full of original patterns which can be used and adapted to create a wide range of professional-looking items. As an endless resource it offers a striking selection of traditional, classic and contemporary ideas, like figures, frames and more, which can be outlined, coloured and embellished as you see fit. Papercraft Inspirations Issue 49, Spring 2007 [This] is a good collection of two hundred and fifty designs including motifs, borders, patterns and letters etc. in a variety of styles, which can be used and adapted as you wish to create your own masterpieces, specially selected from The Design Source Book series. A good buy if you do not want to invest in the whole series. GUILD OF SILK PAINTERS Issue 61, Summer 05 A book full of illustrations - just 250 pictures to copy and trace. There is no text, so no help with enlarging or diminishing the pictures, but of course, nowadays, a computer printer would do the job. The pictures range from Art Nouveau and Art Deco to flowers, border patterns, Celtic motifs, heads and faces, butterflies, birds and animals - ending with two alphabets...the book is a fund of ideas for these crafts - and I thought it good value for money.
