I was hoping for more of a "cutsie" country style. However, the projects in this book are geared more towards a colonial/country look.6 of 6 people found the following review helpful. Beautiful, truely a source for REAL Country!By Michie (sekerka@netpci.com)This book is fantastic! There's none of the so called "country decorating" with little painted wooden figures. This is the real thing! If you're looking for how it's really done, this is for you!2 of 2 people found the following review helpful. Wonderful!By A CustomerI love this book...
