Imaginative EndeavorBy R. C. After seeing this author on tv, I purchased this book. While the costumes are very imaginative, I would embellish them a little more. Some of them appear sloppy cumbersome (like the racecar), but after all, it is "glue and go!"3 of 3 people found the following review helpful. This book is Great!By A Customer My little boy loved this book and is looking forward to building the racing boat this halloween. There are enough good costume designs that I think we'll be able to use it for years. Most of the instructions look easy enough to follow, with only a few minor exceptions. I don't have a

girl, but some of the little girl costumes were the cutest. Anyways, I think this book is perfect for anyone with a kid that is 5-13 years old and is interested in making their own costumes for Halloween.

With readily available supplies and basic tools such as scissors and a glue gun, even the most sew-phobic parent or teacher can create unique, oversize, eye-catching childrens costumes. You wont believe just how simple it is to transform a kid into a corn on the cob, cupcake, pencil, racecar, monster, basket of flowers, birdhouse, hot air balloon, plate of bacon and eggs, or create other unforgettable disguises. The 28 clever ideas are showcased in fabulous full-color photographs and are made with easy-to-find materials, including plastic cups and plates, cardboard boxes, fabric, and foam core.
