I do like the contents (as described) and I plan to keep the book. I am terribly disappointed in the value, however. The price marking on the back of the book says "16.95" and I paid almost \$40.00. No wonder there was free shipping! Your suppliers should be more careful of such glaring differences. May I add that this is my first real complaint at . Generally, I am happy with your service.1 of 1 people found the following review helpful. A Grandmothers Dream!By Log Cabin RetreatMy Grandmother loved this book! Grandmother's Scrapbook of MemoriesBy pepper1I had one of these books for my first grandson, wanted the second for his younger brother.I think it's a delightful way of sharing some of my memories with my grandsons. Right now, they are to young to understand, perhaps they will enjoy it one day in the future. Who knows, it may be the only way I may tell them about myself.

investment usually associated with this creative hobby. This beautiful hardcover journal looks like a real scrapbook and allows you to add your own photos and written memories.
