From Guild of Master Craftsman : Hats (Cozy) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hats (Cozy):

Some of the ladies in our knitting group have used the Aurora pattern to knit chemo caps. The lady who introduced it to us is a survivor who has been through chemo. She used 12 slipped chain rows instead of 7 because she likes a longer cap which can be pulled down to cover her ears. Another lady used the Ribbons and Bow pattern with thick yarn and 4 large double-pointed needles. It came out well also. The book includes 18 pages of techniques for knitting and crocheting, well illustrated. I wouldn't say this book is for a novice (like me), but if you know some basics, or have a knitting friend, I think you could make some of the hats from the book. Experienced knitters will, of course, have no problems. It definitely is good for inspiration, no matter what your skill level. 0 of 0 people found the following review helpful. Five Stars By LM Very nice hat selection for all ages.

These 30 hats, from the classic and chic to the cute and quirky, will delight knitters and put the perfect finishing touch on any outfit. Many of the brilliantly imaginative designs were created by readers of Knitting magazine and showcase the designers' great eye for color and nifty skill with needles. Plus, they're easy, fun, and fast to knit--especially with the timesaving tips and special needlework techniques that add style and professional flair.
