Insert a smaller Curved Log Cabin block in the corner of a larger Log Cabin block. Oriented one way, the curved

block creates a 'valley.' Rotate the block for a 'hill' effect to completely change the look. Use multiple Curved Log Cabin blocks to create a larger block and the design possibilities are endless. Complete instructions for 13 projects ranging from wallhangings to full-size quilts are given. Master this easy technique and you can change the block choice or orientation to create your own unique variations.

About the Author Robert DeCarli, a retired mathematics professor, lives and quilts in Downingtown, Pennsylvania. He developed hill and valley blocks while waiting for his wife at a quilt show.
