Cool holiday crafts!By Sabrina WaltersMy five year old niece loves doing crafts she learned it from school and so I gave her a set of paint as a gift and she loved it! This coming Christmas I am thinking of giving her something fun that I can do with her and so that is why I purchased this book as it has a lot of crafts that we both can do in every occasion! This book contains more than fifty wonderful and artsy crafts that my niece and I will surely have fun doing! Also, this book is perfect for this coming Christmas and we actually started doing the Father Chair Christmas Decor and Cheery Christmas Window to add in our decorations. I just wish the author added pictures on each craft so readers can have a vision on what the art is. Nonetheless, this book is perfect for everyone who loves art and crafts!7 of 7 people found the following review helpful. Definitely recommended!By Demetra S.GerontakisTruly a gem! This Holiday Crafts book is a complete guide to making beautiful crafts for every occasion all throughout the year. Even for those of us who are not very good at homemaking, this book will make things so simple, one will be as tempted as I was to try all of the ideas in it. I especially liked the Thanksgiving wreath that I accomplished easily! Well written and easy to understand instructions, too!3 of 3 people found the following review helpful. huge compilationBy RowanThere are so many crafts compiled in this book. It will be impossible not to find one I can do for the this coming holiday. Many of the crafts use materials that are readily available either at home or from the local craft store. I just found it hard to locate the images since only links were provided which take the reader to a web page which does not really show the actual photo of the project, I still had to browse and download required stuff before I got to the image. It would have been nice if there was a thumbnail of the image which can lead to the website. At least it saves the reader some time searching. Generally, the crafts here are excellent. I give this huge compilation of crafts 4 stars.
