Good for just starting out.By Chas F.If you are just starting out or even just thinking about decorating your house with lights for the holidays, then this is a good place to start. Mr. Finkle goes into depth about all the planning and gadgetry involved with putting up a lighting display. Included are quite a few layouts ranging from a simple display that practically anyone can accomplish to full-on holiday lighting blitzkrieg that perhaps would challenge even a seasoned pro. My reason for purchasing this book was to see if it would contain hints on constructing figures and decor for the yard i.e, wire-frame deer, artificial snowmen, angels, etc. Unfortunately this book assumes that you'll be able to find exactly what you are looking for in a retail outlet or online

and does not go into the fabrication of such figures. I'm still keeping my copy of Holiday Hero for all its great ideas, but will have to search elsewhere for the information that I seek. 0 of 0 people found the following review helpful. Three Stars By Jeanie L. Musser For the beginning decorator. And also women deco art too. 1 of 1 people found the following review helpful. A great addition By PJI got this for my extreme lighting husband as sort of a gag gift but he really enjoys flipping through this book. It sits on his nightstand, under the tv remote control, so you know how important it is!

Be the brightest star on the block when holiday season rolls around. In this easy-to-use outdoor decorating guide, "Mr. Christmas" himself helps transform any home into a sparkling winter wonderland. For everyone from electrical project wizards to people who have never used an extension cord, here is a step-by-step guide to planning, shopping for, and installing a dazzling house and yard display for the holidays. This book turns complex technical tasks into easy and affordable do-it-yourself projects that will impress the wife, enchant the kids, and make the neighbors green with envy. With detailed illustrations and handy packing and storage tips, Holiday Hero eliminates the holiday headaches of untangling lights year after year. Things are looking brighter already.
