**Julia Bunting : Home Decor Sewing Technique Bible** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Home Decor Sewing Technique Bible:

I bought her a sewing machine last Christmas and taught her to use it, and she's been making home decor items, using an old book I gave her for guidance, for several months. I thought she'd enjoy this book. It has a hard cover, and it is spiral bound, so the book will sit flat, enabling the user to follow the directions and refer to the book easily. It is excellent for a non-expert seamstress. (Yes, I know "seamstress" is archaic, but, to me, the word "sewer" brings images of wastewater, etc, to mind. I mean no offense.) It goes through different types of stitches and fabrics, and has how-to directions, with pictures for many things, including different types of

throw pillows, curtains, draperies, duvet covers, tablecloths, place mats, napkins, etc. Suggested fabrics for each type of project are included. I scanned this book pretty carefully before wrapping it for Christmas, and I know my daughter in law will enjoy it as she decorates the house she and my son just bought! 0 of 0 people found the following review helpful. Magnifying Glass Required By Donnachaidh This would have been a five star review had the size of the book been larger. Outside dimension is 7x8 in. Therefore, the text is ridiculously tiny. I am literally going to have to read this book with a magnifying glass. Having said that, the information and illustrations are organized very well. Spiral binding is a great idea too as other posters have mentioned. I'm not a seamstress. This book is for my mom who definitely is a seamstress. She makes beautiful triple pleated curtains and asked for a refresher course since it's been a long time since she's done that kind of sewing. Hopefully this book will meet her needs. 3 of 3 people found the following review helpful. Take it with you! By Kathleen Willoughby Great book to take with you when looking for ideas to decorate. Color combinations make for a more confident journey into home sewing. A great gift to someone who is just moving into their first home/apartment/townhouse, etc. Many, many great ideas!
