**Norman P. Hall, A Neely b. 1883 Hall : Home-made toys for girls and boys : wooden and cardboard toys, mechanical and electrical toys** before purchasing it in order to gage whether or not it would be worth my time, and all praised Home-made toys for girls and boys : wooden and cardboard toys, mechanical and electrical toys:

0 of 0 people found the following review helpful. toy makingBy Jbarr5Home-made toys for girls and boys: wooden and cardboard toys, mechanical and electrical by A. Neely HallThis hand drawn illustrated book shows toys of days gone by, how they were made and using materials that everybody can get easily.Pinwheels not only fascinate children but wind can help make an item move.Planes are another thing good for boys and girls.Railway would be a big hit

also. Some of these toys can be made with minimal help from an adult. Some would need more extensive help with an adult. I want to start at the very beginning and make them all. Love spinning tops and things made with rubber bands. To a child it would be like magic. 0 of 0 people found the following review helpful. **Breath of Life** By Kim Justice When I first saw this book I thought wow this will be neat to check out. Memories of old toys I and my brothers played with. But it was a let down. See the types of toys was good but trying to read the instruction on how to make was not. Missing pictures of how to do. Not being able to actually follow some of the instructions because things were not clear. Was not impressed. As I said, the only good thing was bringing back some memories. Would have been great to be able to show kids today the toys of yester-years. So for those reasons I am giving a **Breath of Life** Rating: Three Clock Rating! 4 of 4 people found the following review helpful. **HOME-MADE TOYS FOR GIRLS AND BOYS** By Kindle Customer The major problem is that the OCR program used did not recognize many of the numbers for the models--thus making the book worthless except for a 'period piece' of another time. The 'one star' is just as a notice for anyone who might want to actually build any of these items.

This book was originally published prior to 1923, and represents a reproduction of an important historical work, maintaining the same format as the original work. While some publishers have opted to apply OCR (optical character recognition) technology to the process, we believe this leads to sub-optimal results (frequent typographical errors, strange characters and confusing formatting) and does not adequately preserve the historical character of the original artifact. We believe this work is culturally important in its original archival form. While we strive to adequately clean and digitally enhance the original work, there are occasionally instances where imperfections such as blurred or missing pages, poor pictures or errant marks may have been introduced due to either the quality of the original work or the scanning process itself. Despite these occasional imperfections, we have brought it back into print as part of our ongoing global book preservation commitment, providing customers with access to the best possible historical reprints. We appreciate your understanding of these occasional imperfections, and sincerely hope you enjoy seeing the book in a format as close as possible to that intended by the original publisher.

**About the Author** Albert Neely Hall (1883-1959) was born and raised in Chicago and spent his adult life in Elmhurst, Illinois. He wrote sixteen books, among them *Carpentry Mechanics for Boys*, *Homemade Games and Games Equipment*, and *Home Handicraft for Girls*. With his brother, Hall founded *Craft Patterns*; after Hall's death, the company changed its name to *A. Neely Hall Productions (ANHP)*.
