are already awesome and I like to pretend I'm crafty, so this is so the book for me! Why do I spend so much money on bath salts when it really doesn't take much for anyone to do it themselves? Okay, convenience and laziness BUT Kate Bello and her how-to guide are showing me the way! I loved this book because it really broke down all the benefits of using bath bombs, salts and scrubs. There are more benefits than just feeling smooth and luxurious! Ease of distress and fatigue as well as detoxification all can be a part of a good soak. But did you know one can also soak to ease asthma, congestion, BRONCHITIS and urinary tract infections? Neither did I until I read this book. I haven't been this excited for a book in a while. Kate Bello really took the time to put together a quality book. No matter what I'm looking for, I'll find it easily and with great detail. Kate separates chapters by seasons, traditional soaks from around the world, scrubs for men, scrubs by scent, scrubs for pregnancy, scrubs for healing. And that's not even the half of it. I can't wait to get in a bath and align my chakras, rebalance my Libra and get myself in the mood! 25 of 27 people found the following review helpful. Heavenly Baths By Elizabeth Elle So I picked this up because I'm a little obsessed with Lush's Bath Bombs and I love to craft. I thought this would be the best of both worlds, and I WAS RIGHT. Beyond that, this book pleasantly surprised me! Not only does this book provide explicit and easy-to-understand instructions, it provides specific recipes for salt soaks for everything: flu prevention, de-stress, athlete's foot, fever-reduction, arthritis, and a ton more. This book utilizes essential oils, salts, small amounts of flowers, and more. My personal favorite of the salt soaks is the Mental Fatigue Salt Soak. After a long day, I like to mix this up quickly and just unwind. In the beauty section, there are so many salt soaks for all sorts of reasons- the Dehydrated-Skin Salt Soak did wonders for me. As for those bath bombs I totally adore? My favorite in this book is the Grapefruit and Rose Bath Bomb- mm! There are bath salt and bomb recipes based on chakras, star signs, seasons, aphrodisiacs, and some from around the world! There are so many in this book, I haven't had time to try them all out. I can't wait to make my way through, especially in the floral bath bombs section. There's even a For Him section, and I'm dying to try some of these out for my boyfriend. All in all, great buy. 5 of 5 people found the following review helpful. my weight or anything like that. Fast forward to my late 20's and ... By Danielle I can relate so much to the author of this book! As a 28 year old who spent most of her life as the skinny girl, I never had to worry about my health, my weight or anything like that. Fast forward to my late 20's and I am now starting to truly understand the meaning of taking care of myself. I am an avid hot tubber as well as bath girl because it helps release toxins but mostly because it helps release stress. A girlfriend of mine got me hooked on bath salts and ever since I've been looking for a book that really helps me make my own. This book not only helps with bath salts but it opened up a whole new world of bath bombs and scrubs - I literally had no idea such greatness could truly exist in the world, but apparently it does. This book is great - every single thing you need to create the perfect bath bomb, salt or scrub is included in this book. Highly recommend taking a minute to pick up this book and enjoy your next bath - these will change your bathing life!!!! If you're hard working and enjoy your bath time as much as I do - this book will honestly change your life. Do it, you deserve it.
