encouraging language of this book. The book has opened my eyes to the various uses of everyday products like coffee and coconut oil. After reading this, I have been using coffee to give my hair a brownish sheen, and it works wonders. I also use baking soda in my toothpaste now, and my teeth are definitely cleaner. Next on my list is to use Avocados for my skin. This is a must have book for everyone!

I enjoyed reading this, as I am interested in the homemade makeups, beauty products and other useful household supplies. I felt this book had a lot of useful information. I would recommend it to anyone who is looking for a low-cost way to make their own beauty products, or even someone who wants to know about natural products that can be good for your hair and skin.
