and fast to learn or use for guidance easy to read from and understand! I loved and i would recommend this book for guidance and to learn some more about making things.0 of 0 people found the following review helpful. recipes for shampoosBy JanVery difficult to understand the whole process of making shampoo. There was reference that if you like cooking you will like this. As far as I can tell there is no cooking in these recipes. I make my own bar soap so this booklet is confusing to me. Also no reference as to where the organic Castile shampoo can be purchased from?0 of 0 people found the following review helpful. Works well and smells greatBy Lauren MontereyI love making things by hand --Shampoo is something everyone uses, or should. Mine always seemed to dry out my hair due to all the chemicals. This stuff works well and smells great.

Healthy, Fuller Hair Health conscious people are now following the healthier trend in order to use more items which are natural and harmless in the long run. The trend of using home-made shampoo is catching the young and educated section of society. Homemade shampoo offers many benefits which are way better than harmful commercial ones.
