I'll pass on the recipes request more patterns pleaseBy Charlotte StoutMs Diehl has another winner. The patterns in this book are very simple with more of a formal look since she is using fewer fabric selections in each quilt. Most patterns are bolder with larger sized patterns, some are duplicated from her previous books.I am kinda disappointed in seeing recipes in her book. I would have liked to see more instructions included on how to extend a wall hanging into a lap quilt or options of what to do in case you are not wanting applique

in a quilt. In other words, "to applique or not applique this quilt". The space taken up by recipes could be used for these types of things or just more quilting tips hints. All her books are geared toward a "planned scrappy look". She uses strip piecing techniques in all her books she tells you how much yardage to buy of each color. It would be hard for a beginner to follow along if she/he was trying to use fabrics from the scrap bag. Cut strips of fabric, crosscut those strips into x number of blocks/half triangles so forth. This is a good thing for me since I do not like things turning out totally scrappy. There is a rhythm flow in her quilts due to her choice of colors placement of fabrics. There is much to be learned from her color combinations. In fact, I have taken a lighted magnifying glass (purchased on) just to get a closer look at the prints background fabric. Just because her quilts are displayed in a "country setting" does not mean they will not look fantastic in a contemporary or modern room. If you are really good at color combinations, then you can move away from the country look quite easily. I have no color sense, so I stick with her color suggestions am always pleased. Bottom line, easy directions, simple patterns, quick construction if you follow her strip piecing directions. I'll have more patterns pass on the recipes though, just my opinion. 1 of 1 people found the following review helpful. Homestyle Quilts By mymegan12A great collection of homey quilts and recipes. About the Author With just the third quilt she'd ever made, self-taught quiltmaker Kim Diehl became the winner of American Patchwork and Quilting magazine's "Pieces of the Past" quilt challenge in 1998, turning her life down a whole new and unexpected path. Her work has been featured in numerous national and international quilting magazines. In addition to her best-selling "Simple" series of quilting books for Martingale, Kim has designed several fabric collections for Henry Glass Co., enabling her to be involved in the full circle of quilting from start to finish. For more than 10 years, Laurie Baker has been a freelance editor and writer for the quilting, sewing, and crafting industries, and she occasionally designs projects for publication. Laurie lives in West Peoria, Illinois, with her husband, Todd; her college-aged children, Nick and Caitlin; two fat and sassy cats; and an enormous arsenal of fabric that she loves adding to. When she's not playing with needles and fabric or contemplating where to stash her latest textile acquisition, she enjoys gardening, reading, cooking, and knitting. She has no plans of entering rehab for her fabric addiction.
