go with the flo books : How to Draw Lego Characters: A step by step guide on drawing Lego characters like a **pro** before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Draw Lego Characters: A step by step guide on drawing Lego characters like a pro:

0 of 0 people found the following review helpful. Disappointing qualityBy Rustie C. DimitriadisI was not impressed with this book. It looks very amateurish, like it was printed on a home printer and photocopied. It looks pixelated from photos being enlarged to fit the pages. Also, "how to draw" books are usually made with a number of images in a progression across two pages. This one spreads out all of the steps, one frame at a time, one per page, which seems like it was done to make the book look fuller and more substantial. I ordered this as a birthday party gift and didn't have time to return it. I imagine the recipient still liked it, but I was more embarrassed than proud to give a product of this quality. If I had had the chance to view it in a store or see it with 's "Look Inside" feature, I would not have

purchased it.0 of 0 people found the following review helpful. For intermediate child artistsBy HSommerI purchased this book for my son (9 years old). He is a gifted artist and does well looking at objects to recreate them. He had some difficulty at first with this book because it is detailed so much he felt his drawings were never good enough. I'm not an artist and liked the book for the very reason it is detailed and step-by-step that even I could recreate the characters. Once, my son got past the idea of doing EVERY thing exactly as the book presented he enjoyed it. I would not recommend this book for a beginning artist, but one who already has some experience with drawing characters/people.0 of 0 people found the following review helpful. Photocopy?By ABCvilleVALooked like a photocopy of another book when I received it. I returned it.
