Shawn Mitchell, Lynne Mitchell : How To Haunt Your House before purchasing it in order to gage whether or not it would be worth my time, and all praised How To Haunt Your House:

1 of 1 people found the following review helpful. Not very good at explaining what they are doing on the videos.By Robert Marshallthe videos don't explain what they are doing as they go along. Someone should be telling us what they are doing and do a better job of explaining what they are doing. Don't bother with this book Stiltbeast studios and Drachenfang vidoes on utube do excellent how to videos on u-tube and they are free. Don't waste your time or money on this book.1 of 1 people found the following review helpful. So worth it!By Kristen JacksonI will just say I am big into Halloween. I own dozens of books on the subject, it's absolutely my go-to search keyword when looking around online, so I feel like I have some perspective on expectations on a Halloween book. I plan Halloween parties every year and decorate happily the way many people do to celebrate Christmas. I wish I had this book a couple of years ago

when I was planning my Halloween wedding! I LOVE LOVE all the tips and tricks! There are so many things in here that I hadn't been able to find before. The projects are fun and creative and totally easier on your budget than buying things pre-made (and who wants to do that anyways, right?) You will not be disappointed in purchasing this book. It's totally worth the money! I am a very happy customer. Happy Haunting! 1 of 1 people found the following review helpful. Good book By rosered I really like this book, it is one of my favorites but... after I got it 13 pages just came unglued from the binding. I actually waited a really long time to buy this book because of its price so when that happened I was really bummed. But I built the Endless Mausoleum using this book and it worked great and I hope to build the Graveyard Fence- with a twist!- this year. It's quality in content, instruction and pictures outweighs that one unfortunate event. Recently I discovered a DVD "Fun-to-Know," "Create a Halloween Haunted House" for \$10 and it was full of exciting ideas too. The props in both this book and the DVD are different so if you buy them together you get a wide range of large scale to small scale props.

If you are looking to raise the coffin lid a little higher this Halloween, try out some of these spooky projects and tips. From simple to advanced there is something here to make your next Halloween party or home haunt even spookier. Halloween is for grown-ups too-- the projects in this book are not intended for children, but for the creative, adults who want to handcraft their own Halloween home haunt and graveyard fun.
