Rashelle Johnson : How to Make Bath Melts Bath Bombs before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Make Bath Melts Bath Bombs:

13 of 13 people found the following review helpful. 8 Bath Bomb 9 Natural Bath Melt Recipes Plus Basic Info - No Illustrations or PhotosBy ChristineMMThis book has basic information about oils and butters, such as oil properties (the benefits each can give the skin). The same information is provided for essential oils. There are also prices estimates for those ingredients.The basic process of how to make a natural bath bomb (no emulsifiers) and how to

make a bath bomb aka bath fizzy. The bath melts are all natural and contain only oils and butters. She recommends 1 ounce bombs for a regular sized bathtub, which surprised me because others on the Internet use the term bath melt to mean a combination of butters, oils, citric acid and baking soda and essential oils for scent and also say only 1 ounce size for a regular tub. There are 8 recipes for bath bombs and 9 recipes of natural bath melts. The author chooses to not use emulsifiers but states if you want the heavy oils and butters to disperse throughout the bath water rather than float on top the two she recommends are Polysorbate 80 and BTMS. She doesn't say much about those except to say that BTMS is "the most natural" whatever that means. There are no illustrations or photos. I "bought" this book on a day when it was being offered for free. I rate it 4 stars since it has helpful information and recipes at zero cost to me. I did not rate it 5 stars because the book lacks tips and tricks that I have read elsewhere on the Internet (for free after digging). She never mentions if the bath bombs crumble apart the next day what could have gone wrong, or any troubleshooting for that matter. I have not made bath bombs yet but have seen photos online of failed batches and heard of many frustrations. She does not even say people have trouble or give ideas on how to prevent that from happening. 0 of 0 people found the following review helpful. A reasonably good book with no pics or illustrations. By marriagecoach1 This is basically a primer to start a business in bath melts giving different recipes. It could have been a much better book if it had contained illustrations on making the products and what the final products looked like. That being said I learned about some products that I had not previously known about and it is still a worthwhile purchase, especially if you want to start your own small business. The reviewer is the author of the new Kindle book entitled: Sex Education For Adults Secrets To Amazing Sex and Happily Ever After Too. 0 of 0 people found the following review helpful. very thorough but no pictures. By Levi's Mom I have the kindle edition of this book and found the content to be very good in terms of its explanation of the use of essential oils and for making fizzies and bath melts. I would have liked to see the author address adding foaming agents to the bombs for a bubbling bath fizzy and also explanation for the purpose (and possible substitution) of various dry ingredients. The kindle edition of this book doesn't have any pictures... I don't know about the paperback version.

If you want to get started making your own bath bombs, but are hesitant because you don't know where to start, this is the book for you. Bath bombs and bath melts are relaxing and comforting tub-time treats enjoyed by many. You toss one in the tub, hop in and relax as the wave of beneficial ingredients washes over your body. The problem is buying commercial bath melts and bath bombs can get expensive in a hurry. The good news is you can make them yourself for less than half the price of what they cost you in the store. They're quick and easy to make, too. You can whip up a batch in less than 15 minutes using any of the 18 recipes in this book. The best part is, you aren't tied to recipes in the book alone. You can mix and match the ingredients to suit your needs. Buy "How to Make Bath Melts and Bath Bombs" and start pampering yourself today!
