I liked that it came with recipes and talked about the different kinds of soap making. But I wish it talked about cold process soap making.

This innovative book includes 25+ recipes for shampoo bars, hair rinses, and hair masques. It contains many black and white photos, step-by-step instructions, and a chapter on natural additives. You get fragrance and essential oils information, and the creative labeling and packaging ideas chapter includes several photos. There is lots of information for both melt and pour and rebatch/hand-milled soap bases and how to craft fine bases into wonderful shampoo bars for all hair types. How to Make Handmade Shampoo Bars: The Budget Edition is written and photographed by the author of The Joy of Melt and Pour Soap Crafting.
