Bourbeau I bought the kindle edition of this book and am currently working my way through it as I build my etsy shop. I have probably bought 10 or more e-books/ books/online courses designed for the craft business bu this is the best by far. Such a practical step-by-step guide to setting up shop. I know my craft of sewing inside-out but as a retired physical education teacher I have no inside experience with business and retail. This book is a life-saver for me! LOVE it!! I am probably gonna order the physical book as well. This is just one of those books I want to be able to hold and mark in.
