By Tonya Sims Super nice reference collection book; great for the simply curious, as well as serious doll collector! Thx so much!! 3 of 5 people found the following review helpful. Not so good. By traceyanne Was so excited to get this book and was so disappointed when it came. Not very many pictures of dolls other than the ones on the cover. Also, does not cover many dolls of that era -again, mainly the ones on the cover and still not alot of information on them. There are better books out there.

catalog of dolls produced in the 50's an 60's
