This would be a wonderful book for inspiration. If you are wanting more information on the history of Ikebana, or formalized explanations, though, look elsewhere. Still, it is a wonderful reference book! 2 of 2 people found the following review helpful. Great Contemporary Flower Designing By Sogetsu person I'm always interested in books that open the mind and this one certainly does. Pushing the limit to 100% brings us back to at least 50% and that's progress. Anxious to read the other related Ikebana/Japanese contemporary books published by Stichting kunstboek. 0 of 2 people found the following review helpful. Ikebana through all seasons By fukutei This is an excellent book describing the best of current Ikebana artistry. It inspires Ikebana students to look beyond their boundaries and to be grateful for the world where they reside.

Focuses on Ikebana arrangements through the seasons, giving rise to a variety of Ikebana expressions.
