Parragon Books : Insane Flying Machines (Box) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Insane Flying Machines (Box):

Ever made a paper plane? Well this is the next step. This fantastic box set will get all your competitive juices flowing as you battle to determine who can build the longest-flying glider. All you have to do is take a turn spinning the wheel that determines what your plane will be made of. Your wings could be trousers, your tail a pair of pants, your rudder a bobble hat. All the plane parts are all individually designed and come in various shapes and sizes and the plane that goes the furthest, is the winner. Simple and random. Happy flying.
