Per Benjamin, Tomas De Bruyne, Max Van de Sluis, Heln Pe, Kurt Dekeyzer, Pim van der Maden : Interior Emotions: Life 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Interior Emotions: Life 3:

0 of 2 people found the following review helpful. this book is pretty, but not what I expected to find By Concepcion I have always Per Banjamin's creativiy and have bought most of his books. However, this book is pretty, but not what I expected to find.

Thanks to cocooning and a hype around DIY, crafts and upcycling, our homes are increasingly becoming warm nests and a playground for creative minds who seek to inspire us through the use of color and innovative designs that make a statement not only about who we are but the internal space we occupy, the space we call home. Plants and flowers

have become favorite tools in interior design. Whether you like Scandinavian design or a classical romantic style, there are flowers and combinations to suit every interior. Interior Emotions contains a wealth of stylish floral art for the home, using different environments and styles, ranging from subdued to colorful, playful, small scale to wallscapes. This collection offers inspiration not only to the professional florist but to amateurs, who will be able to pick up ideas and get creative in their own homes. Featuring the work of three unique and internationally respected designers, this volume focuses on creating individual style with ideas that are inspiring and original, bringing an additional natural element and splash of color and style to any internal space lifting it from being a room, to an environment that lives and breathes.

With truly original ideas and innovation, this chic volume proves an interior can go from a simple room to an environment living, breathing, and emoting with style.
