It appeals to the inner child! The images are a wonderful mix of simplistic to intricate coloring tasks, so there is a range of investment, which I appreciate. The style of drawing is much more reminiscent of children's books than the usual adult coloring book I've come across. Very fitting for a book about dreams, targeting the imaginative introverts of the world!1 of 1 people found the following review helpful. Fun and flowyBy slinkygeek213Love my new coloring book! I like that the pictures are interesting, but not so complicated that it takes me a month to color one of them. Plus, it has an actual story to it which is kinda fun. :)0 of 0 people found the following review helpful. Great coloring book!By donna harveyLoved it! Great for introverts!!!
