Jane Packer : Jane Packer's at Home With Flowers before purchasing it in order to gage whether or not it would be worth my time, and all praised Jane Packer's at Home With Flowers:

1 of 1 people found the following review helpful. Wedding PlanningBy Judith C. TrolleyAs I make plans to design the flower arrangements for our daughter's wedding I find I need a source of different flower arrangements that would work using easily available flowers in one color. I hoped Ms Packer's book would be that source and it is. It has also helped our daughter to refine what she wants. Thank you Jane Packer for this and your other book, which I also bought, as they are invaluable resources.

Live with flowers the Jane Packer way. Leading floral artist Jane Packer is renowned for her chic signature style of elegant flowers arranged with a fresh, modern twist. In *At Home with Flowers*, Jane picks the flowers she loves best and shows how they can bring colour, variety and style to every corner of the home. She covers all the basics, including buying, conditioning and caring for flowers as well as choosing the right vases to display them in. Jane then takes us on a tour of every room in the house, from the hallway to the bedroom, taking in the kitchen, living room and

bathroom along the way. There are dramatic flowers for mantelpieces, massed vases on console tables, architectural blooms showcased on coffee tables, luscious posies on dressing tables and desks, and even cut flowers for outdoor entertaining, as well as arrangements for guest rooms and bathrooms. There are no stiff bouquets or formal displays, just pretty, simple and achievable arrangements that you'll yearn to recreate in your own home.
