Beautiful, interesting book but are not for beginnersBy Candy KayThese quilts are very attractive but are fairly

I haven't quilted in over a year because I couldn't ...By Abby_SI haven't quilted in over a year because I couldn't find a project that I was excited enough about. This book has given me two different projects that I can't wait to start. Most of the projects are made for a 40-strip jelly roll plus some "background" fabric, some are written for smaller (30 strip) rolls, one project uses more than one roll. It does appear to be a British book, by the metric measurements, but inch measurements are also included.

Jelly rolls are the new fat quarter bundle! They consist of 2 inch strips of color-coordinated fabric, rolled up to create a solid disk and tied with a ribbon. Jelly Roll Quilts is the first book to show quilters the best ways to use these desirable, laborsaving fabric packs. The author shows how to make 15 quilts; each perfectly suited to the color-coordinated jelly rolls and includes variations in color, style and size for each project. Jelly roll quilts are suitable for quilters of all skill levels, especially those quilters with a passion for a variety of fabrics. With names like Bars of Gold and Blue Lagoon, the quilts demonstrated in Jelly Roll Quilts are on the cutting edge of the craft.
