The Jiffy Quick Quilts book provides a lot of possibilities. I bought the book primarily due to the photo on the cover. Love all the colors in that particular quilt. I am trying to get several quilts finished by the first of December so that I can give them as Christmas gifts. There are three patterns in the Jiffy Quick Quilt book that I have selected to make. I would recommend the book for any quilter who needs to make several quilts in a short period of time.0 of 0 people found the following review helpful. great for a beginner but not more than thatBy caroVery basic as the name implies, but then

that's what I expected, great for a beginner but not more than that.0 of 0 people found the following review helpful.
Not what I expected it seemed like they wanted you to copy not create.By CustomerThe book tells you what fabric to use it doesn't really give you a pattern . I was hoping for more pictures of the same pattern. Only one pic of each

Here is your go-to book when you want to make a fast but stylish quilt. All the projects in this book can easily be made in a weekend, and some in a day. 10 projects have size options making a total of 20 possible projects. Imagine your fabric choices in one of these beautiful patterns.
