Elizabeth Hilliard : Kilim and Tribal Rug Book: Decorating with "Fired Earth" before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kilim and Tribal Rug Book: Decorating with "Fired Earth":

2 of 2 people found the following review helpful. Same book as Hilliard's 2nd Edition By fastidious one I have had both editions of this book for some time now. My advice: Save yourself some money and get her Kilim book (Blue Dust Cover with a Gabbeh on it) instead of this one. It is virtually the same book. Both books have a few decorative photos and basic info about kilims... the same amount of pictorial and info about Iranian Gabbehs is included. I appreciated the data about the Gabbehs the most.

Woven in rich, jewel-like colours, and infused with symbolic meaning, woven tribal rugs are highly prized possessions. This book tells the story of the rugs both ancient and modern, delving into their history, their decorating potential and care.'
