felt disappointed and wanted to start from scratch. Still have a lot to learn before trying my first batch. Very excited about it though! 0 of 0 people found the following review helpful. Know How to Make Cold Process Soap by Kerri Newberry

The title of this book is very honest about what is in the book. The very basic soapmaking. This little book is filled mostly with blank pages and is for someone who has never made soap. I was somewhat disappointed. Not even a fragrance blend. I will however give the basic veggie and goats milk recipe a try.
