Nancy Zieman, Natalie Sewell : Landscape quilts before purchasing it in order to gage whether or not it would be worth my time, and all praised Landscape quilts:

1 of 1 people found the following review helpful. Love landscape quiltingBy bus driverIt took me 4 tries to get this book. I ordered it from 3 other places and each time it was canceled. I did finally get it and I love it. If you are interested in landscape quilting, you will love reading this book. It is filled with pictures of the quilts that they made and suggestions on how to improve on what they did when you make you own quilt. I recommend it. It was published in 2001 so it it a little hard to find. Enjoy0 of 0 people found the following review helpful. Lots of InformationBy MaggieI've wanted to learn how to do this for a long time. When I saw this on , I knew it would be the one I could really learn from. The scenes in this book at fantastic. I found it's not as hard or difficult as I thought it would be. I'm sure with some trying and mistakes and trying again, I might be able to accomplish this. Beautiful pictures of her creations and also Natalie's creations.0 of 0 people found the following review helpful. Good bookBy Cynthia R. WhitneyI've wanted to learn how to make a photo quilt for some time and I think this will give me the information I need to get started. Now I just need the time!The photos are great, drawings are concise and informative, and there isn't too much information to overwhelm the reader. Get it if you have any interest in making one of these. Get it if you just want a fantastic book with great ideas. Get it if you have a quilting friend you want to give a terrific present to.
