**Joanna Sheen : Lavender (Little Scented Library)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lavender (Little Scented Library):

5 of 5 people found the following review helpful. What a delightful little book!By KittyBooksRecipes, aromatherapy, herb pillow directions, advice on soaps, nosegays, potpourri, it even includes directions for making lavender wands and bath bags! Each two page spread has its own theme, my favorite was the end of the book, entitled 'Tea Time' with recipes for lavender biscuits and directions on how to make lavender tea. This little tiny book (only 41 pages) is packed with beautiful pictures and loads of information. My only regret is that I didn't get the rest of the books in this set.

Each volume of this series concentrates on one particular natural source of scent or specific craft or theme. Step-by-step photographs, accompanied by simple captions, provide practical instructions for all the basic techniques. This book on lavender contains a wealth of fragrant ideas. Packed with recipes drawn from the past and present for pot pourris, scented colognes, herbal lotions, natural soaps, fragrant sachets and bathroom luxuries.
