Leach's : Leach's 6D #135 c.1935 Pochettes and Handbags in Needlepoint before purchasing it in order to gauge whether or not it would be worth my time, and all praised Leach's 6D #135 c.1935 Pochettes and Handbags in Needlepoint:

17 Pages. If you love working in needlepoint or canvas embroidery, these patterns are just the thing for you! These lovely designs are constructed on canvas using various techniques including Florentine stitch. There are NO TRANSFERS, or lay-outs of the individual designs - but there is an entire page of written instruction for each item, including a few diagrams of how the handbag is constructed. It would not be difficult at all to bring these lovely designs to life with the large pictures and easy to follow instructions that are included. REPRODUCTION
