J.D. Lenzen : Leather Corded Fusion Ties: Knotted, Braided Sinneted Bracelets, Necklaces Pendants before purchasing it in order to gage whether or not it would be worth my time, and all praised Leather Corded Fusion Ties: Knotted, Braided Sinneted Bracelets, Necklaces Pendants:

I wasn't disappointed. In fact I was more impressed than I thought I would be. The knots are shown in very clear step by step photos. There are also tips that show how special techniques are used.There were two things I had hoped to see, first an explanation of how to measure the strands that make up a braid. I struggle with knowing what it will take to get a certain length of a braid.

For example, in other books I have seen a list of materials needed to make a specific sized item. Second although JD does explain tools that are handy I hoped he would have included a list of suppliers. Perhaps the second edition will include these updates. That would make this as close to perfect as it could be. 1 of 1 people found the following review helpful. Better for kids teens By Customer It would be a good book to use for teaching kids at summer camp. 0 of 0 people found the following review helpful. Leather luxury!
