Banar : Let's Play Cards (Leisure Arts #3935) before purchasing it in order to gage whether or not it would be worth my time, and all praised Let's Play Cards (Leisure Arts #3935):

ADELSONAs an artist I have several books on Artists Trading Cards (ATC's) and this one is not the best, but it does have some good information. I'm not sorry I bought it, but I would not recommend it to a friend because there are much better books on the subject. I do like the idea of repurposing a deck of playing cards, and have done so even before I received this book. I would have liked to see more ideas for card designs, but the author was pretty well limited to a minimal number of ideas.1 of 1 people found the following review helpful. Five StarsBy Peggy Taylorcool4 of 4 people found the following review helpful. disappointingBy E. AkersSeveral of the projects in this book are uninspired and very simple (use an unaltered playing card in a greeting card). I was expecting something more creative.

What started out as an art project in the late nineties is an international cultural and crafting phenomenon in the new

millennium: Artist's Trading Cards (ATCs). And now Leisure Arts and Banar Designs deal even more players into the game. Let's Play Cards offers 83 ways to turn ordinary 2 1/2" x 3 1/2" playing cards into collectible works of art using all manner of techniques, papercrafting, and embellishment.
