Willy Peeters, John Brooks : Lock On No. 15 - F/A-18 A/C CF-18C Hornet before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lock On No. 15 - F/A-18 A/C CF-18C Hornet:

0 of 1 people found the following review helpful. Excellent Modeler Resource-Typical VerlindenBy CustomerExcellent detail shots of entire airplane, This is a Walk-around type Picture book for hardcore enthusiasts. Very little to no aircraft history, operational stories, pics of different squadron markings, etc. But those are available elsewhere. This is a reference for the serious modeler, If you are interested in the actual mechanics of the Bug this book would go very nicely with a maintenance manual so you can figure out what all those black boxes and parts actually do. Typical verlinden book, a thousand shots of one or two planes in gruesome detail.2 of 3 people found the following review helpful. A REVIEWBy Davis HartfelderThe F-18 Hornet is an aircraft highly rated and hard to review. However, this book includes insight and the things I really wanted to see and couldn't with anything else (sorry "JANES"). Good information and coverage on specific points really made this book a good read and stare.

This fifteenth edition of the popular LOCK ON series focuses on the details of the McDonnell Douglas F/A-18 A/C and CF-18C Hornet. Stunning full color photography captures the graceful lines and sophisticated details of this highly capable combat aircraft. Details highlighted include the cockpit, ejection seat, engines, landing gear, radar, avionics, armament, external stores, wing folds, in-flight refuelling receptacle, and more. Each highly detailed color photograph is accompanied by a highly informative caption to guide the reader through the details. This beautiful book of this awesome aircraft belongs in the collection of every scale aircraft modeler, as well as aviation enthusiasts, and USN

veterans.
