However wrihting an educational text has changed a bit since 1980. Fortunatly Bill has written a much better book with more content, get "The Complete Book of Locks and Locksmithing".0 of 0 people found the following review helpful. Overall the book is pretty good. I found the pushbutton door locks a bit difficult to understand.I have already bought some of the tools to try repairing locks.0 of 0 people found the following review helpful. great shipping, but not lesson book I expected.By Marcel R. L'HeureuxThe author had a lot of knowledge all over the map. Instead, he should have concentrated on a few major items and, in this day and age, provided nice diagrams and pictures. It's hard to follow mechanical instruction with words only. I wouldn't recommend it to someone wanting to learn locksmithing.
