**John McCann, Becky Thomas, Monica Sweeney : Loom Magic Xtreme!: 25 Spectacular, Never-Before-Seen Designs for Rainbows of Fun** before purchasing it in order to gage whether or not it would be worth my time, and all praised Loom Magic Xtreme!: 25 Spectacular, Never-Before-Seen Designs for Rainbows of Fun:

5 of 5 people found the following review helpful. horribleBy S. Slovinthis book lacks so much detail as to how to place and loop the bands that it's a miracle that anything comes out right. The amount of time it takes to do these

multistep projects only to find that 1 band wasn't looped properly and the whole thing is ruined, is truly frustrating and annoying! They just show you a picture of how it should look with bands placed and then a picture of how it should look looped without telling you which order to place bands or loop them. It's a total guessing game based on what you see in the picture. I WISH that there were other books out there that used the real Rainbowloom technique with Susanne Peterson. 10 of 0 people found the following review helpful. Worthy of checking out from the library... By str8moben I purchased two copies of this book in order to replace a copy we checked out from the library and got damaged. We felt that the book was worth the purchase price of less than three dollars based upon the first look through and a couple projects that were completed by my daughters. However, after an extended length of time and multiple failed projects due to the lack of detail provided in the book, I would recommend that people check it out from the library first. My daughters aged 7 - 11 are great at following instructions. They play snap circuits all the time, and follow the instructions better than I do in many cases. However, these instructions just do not translate. My daughters liked the difficulty ratings, they felt that it provided them with a true rating that would prepare them for what was to follow. They liked a few of the projects, however, felt that many of the projects were not even worthy of spending the time to try. Other projects they gave up with after spending the time to build them, only to find that when they took them off the loom time time again, that they would just fall apart. Overall the book is worth 3 dollars because my kids spent some time using it and they had fun with the projects. But after the first couple weeks, they have not picked the book back up, hence the library recommendation. 7 of 7 people found the following review helpful. Dissatisfied By Lori All the patterns required two to three looms to create a project. Cute patterns but do not have that many looms and you also need 200 to 300 bands for each project. Won't get any use out of this book

From the authors of the instant bestseller Loom Magic! comes a second amazing project book with twenty-five totally new and extreme designs! Rainbow Looms are taking the world by storm, with devotees of all ages accessorizing their wrists, backpacks, and rooms with fun and creative projects. These super imaginative, out-of-this-world projects will take your rubber band loom projects to the next level. Here are kid-tested step-by-step instructions and bright color photographs to show you how to make the coolest rubber band projects out there, including: Twisty headband Bouquet of flowers Octopus Decorated ponytail holder Fashion jewelry stand Glow-in-the-dark stars Zipper decoration Hockey stick Bloodshot eyeballs Black bat And many more!

About the Author John McCann likes listening to music and practicing his photography, and he can solve a Rubik's Cube in three days flat. He has a BS in biomedical engineering from the University of Hartford and is currently pursuing his masters. He is also the coauthor of Loom Magic!: 25 Awesome, Never-Before-Seen Designs for a Rainbow of Projects, and he resides in Torrington, Connecticut. Becky Thomas enjoys crocheting, cross-stitch, and playing video games. She is also the coauthor of Loom Magic!: 25 Awesome, Never-Before-Seen Designs for a Rainbow of Projects, and she lives with her husband, Patrick, and their cats, Leo and Leia, in Burlington, Massachusetts.
