Chris Bishop : Luftwaffe Squadrons, 1939-45 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Luftwaffe Squadrons, 1939-45:

0 of 0 people found the following review helpful. Love it By Katryna Came in perfect condition and very quickly, and was exactly what I was looking for! My fianc is obsessed with WWII planes, I was able to research some of his favourites and surprise him with my knowledge when one day I popped into his studio and stated how much I liked the Stuka painting he was working on 3 of 3 people found the following review helpful. Good Starter Book By Dummy A small book that details the operational formations of the Luftwaffe. I found it interesting, but leaving me wanting more. For a modeller, it is a start. For the historian, it leaves you wanting. I recommend to those simply interested in a general overview. 0 of 0 people found the following review helpful. I enjoyed the detailed photos and the battle summary By Keysha Lewis Desilvey I'm going to give this book a decent rating, I enjoyed the detailed photos and the battle summary, if you're looking for a more thorough history of the Luftwaffe, then you should try some other titles, as a reference guide, it's great, I am going to get some of the other titles to complete the collection of this series.

Illustrated with detailed artworks of German combat aircraft and their markings, The Essential Aircraft Identification

Guide: Luftwaffe Squadrons 1939-45 is a comprehensive study of the Luftwaffe in World War II. Organized chronologically by theatre of war and campaign, this book offers a complete organizational breakdown of Luftwaffe units, from the Polish campaign through to the last days of the Reich. Each campaign includes a compact history of the Luftwaffes' role and impact on the course of the conflict, as well as orders of battle, lists of commanders and campaign aces. Every type of aircraft is featured, including the numerous variations and types of well-known models, such as the Messerschmitt Bf 109, Junkers Ju 87 and Focke Wulf Fw 200, through to lesser-known aircraft, such as the Arado Ar 232 transporter, Heinkel He 162 Salamander fighter and the Henschel Hs 129 tank destroyer. Each aircraft profile is accompanied by exhaustive specifications, as well as details of individual and unit markings. Packed with 400 color profiles of every major type of Luftwaffe combat aircraft, The Essential Aircraft Identification Guide: Luftwaffe Squadrons 1939-45 is a must have reference guide for modelers, military historians and aircraft enthusiasts.

About the Author General editor Chris Bishop was the editor of the Encyclopedia of Weapons of World War II, and author of German Campaigns of World War II, The Rise of Hitler's Third Reich, SS: Hitler's Foreign Divisions and The Military Atlas of World War II, among many other military history titles.
