**John L. Feirer Earl E. Tatro : Machine Tool Metalworking** before purchasing it in order to gage whether or not it would be worth my time, and all praised Machine Tool Metalworking:

0 of 0 people found the following review helpful. GreatestBy CustomerGreat book, like new. Thank you0 of 1 people found the following review helpful. Three StarsBy jim stewart1961 copyright1 of 1 people found the following review helpful. This is a very good basic reference for new machinistsBy Ron LThis is a very good basic reference for new machinists. I used it in a machine shop class when I was in college in 1966. It has nothing about CNC machining or anything modern like that. Just basic stuff. Great for beginners.
