In recent months there has been an astonishing resurgence in the striking yet simple craft of macram (first made popular in the 1970s). In *Macram*, Fanny Zedenius offers a refreshing twist on the addictive craft. Beginning with the basics, she takes us through all the essentials: what you need to get started, a glossary covering 30 of the most popular knots, tips on how to create different patterns through various knot combinations, and advice on how to hang and display your makes. The book also takes readers through ombre-dyeing, fraying, and customizing with beads, and includes fully illustrated step-by-step instructions for 22 homeware projects such as impressive wall hangings, a beautiful table runner and napkins, whimsical dream catchers, and pretty plant hangers.

"an invaluable resource for igniting the imagination about an ancient craft that combines the earthy elements of rope, a few tools, and fingers." - Publishers Weekly
