Finkel teach a middle school Hawaiian plant course and this is my first time doing the majority of the activities. I found this book helpful to teach me so that I could teach my students. There was a variety of activities. I liked the detail on how to play the games and make the different products. The pictures were also helpful.

Instructions for craft projects and activities which are traditionally Hawaiian. Includes how to use ti and coconut; how to make tools, cordage, toys, and leis; how to prepare foods and natural dyes; how to plant such crops as coconut, banana, and sugarcane; and how to play Hawaiian games.

"A paean of praise to Hawaiian island crafts and artifacts. From toys and games to foods and planting, the authors cover an incredible variety of items. The 70-plus patterns are accompanied by black-and-white drawings and explicit instructions (the latter influenced by the authors' vast teaching experience)."
