MAKE Magazines annual Maker Faires have become the engine that drives the diverse and ever-expanding maker movement. At the heart of these events are the projects that their clever creators bring to show off and to inspire others to create. This special edition of MAKE celebrates the best of these projects, as seen at the Faires and in the pages of the magazine, as well as profiles of the makers who create them and the Faires that bring them together. Build a secret knock gumball machine Find out how to 3D-print your head Make a high-power water rocket Set up your electronics workbench

About the Author Mark Frauenfelder is a writer and illustrator living in Los Angeles, and the editor of MAKE. He is the cofounder of the popular Boing Boing weblog and was an editor at Wired from 1993-1998.
