Stunning photos. Stunning book.By AndreaWhether a novice or an expert of mineral make-up, this book takes you through all the steps needed, through colour charts and skin tone charts, ingredients, application know-how and easy explanations etc. to create pure, natural, inexpensive cosmetics for every part of your face skin, lips, eyes etc. that are completely bespoke for your complexion and colouring. Stunning photos serve to enhance this book further still. This book is a real treat.I chose to read this ARC for which I have given a voluntary and unbiased review.0 of 0 people found the following

review helpful. Great DIY makeup book full of great recipes with fun names By Stefanie G. Creating your own makeup is the ultimate way to get the perfect color in an organic healthy way. This book covers everything from supplies, tools, and color advice. A fun part of the book are the great names of the colors-as with most make up the names can be fun to "make up" ---pun intended :) The recipes also offer substitutions so can easily be made when you have a stash of the basics. If you like cooking and crafting making your own makeup could be a great new activity.

Making your own mineral makeup is easy and inexpensive, and these 79 recipes detail how to customize for skin type and color. Formulations for eye shadow, foundation, concealer, blush, highlighter, and more will help you create mineral-based powders free of fragrances, parabens, and toxins. You'll also learn to make simple and safe lip balms and glosses. Many recipes include ingredients that help promote healthy skin, and the in-depth ingredient glossary and at-a-glance substitution chart identify properties such as oil-absorbing and healing, while also highlighting vegan options, so you can create cosmetics that meet your skin's needs and reflect your personal values.
