**Rob Merrett : Make Your Own Soft Toys** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Make Your Own Soft Toys:

We had looked through it at Joanne's Fabric and decided it was good but didn't want to pay full price. Anyway, she loves it! It has all of the patterns for all of the ideas and that is what she wanted. As for the directions, she says they are difficult to understand. She just does her own thing with the patterns and all of her projects turn out great! I still have to sit down with her and make one so I'll see if I will ignore the directions also...6 of 6 people found the following review helpful. Great selection of designs! By M. Mackinnon This book has beautiful designs - whimsical and modern. I had a chance to look through it, and there

were a number of things I was tempted to make as gifts, even though my children are now grown. I would suggest showing a few more images of other patterns in the book.

This wonderful collection of handmade toys will delight children both young and old. The 25 projects, designed by expert craftsman Rob Merrett, take their inspiration from traditional playthings, including dolls, animals and more. Begin with Baby's First Soft Toy - delightful gifts for newborns designed in soft colours and gentle prints. Nursery Novelties is next, with easy patchwork and applique embellishments, followed by Activity Toys, where clever designs will stimulate young children's minds. Creature Comforts has adorable animals that are perfect for little ones in a range of pretty fabrics. Finally, Divine Dollies is packed with trendy, vintage-looking rag dolls that you will love to make. Rob also develops the concept of 'Kids Forever', where designs should appeal not just to children, but also to adults who will appreciate his stylish, retro approach. Each toy comes with clear, step-by-step text and beautiful photography and artworks that will guide even a novice stitcher, helping them to produce gorgeous gifts with a charming, handcrafted feel.
